About

I'm a student of software engineer, used to C#, HTML, CSS and Javascript. I also know Python, Java, PHP, and of course, SQL, I do both FrontEnd and BackEnd development, but I prefer FrontEnd.

I'm a big fan of video games, FootBall and BaskteBall.

I really enjoy music, there's not a time in the day where I don't listen to music. I like to be in constant learning of technologies and practice frequently.

Education

Liceo Academico de Puriscal	02/2015 - 12/2019
Universidad Fidélitas <ul style="list-style-type: none">• Studying Computer Systems Engineering	01/2021 - Present
